

# PMP STATUTES AND CODES

---

Oklahoma Bureau of Narcotics and Dangerous Drugs Control

# Statutes and Codes

- ▶ **Who is required to register (63 O.S. 2-302, 2-303, OAC 475: 10)**
  - ▶ Every person who manufactures, distributes, dispenses, prescribes, administers or uses for scientific purposes any controlled dangerous substance
  - ▶ Practitioners shall be registered to dispense, prescribe, administer or use for scientific purposes substances in Schedules II through V if they are authorized to carry on their respective activities under the laws of this state.

# Denial, Revocation, or Suspension

- ▶ **What can cause denial, revocation, or suspension? (63 O.S. 2-304)**
  - ▶ 1. Has materially falsified any application filed
  - ▶ 2. Has been found guilty of, entered a plea of guilty, or entered a plea of nolo contendere to a **misdemeanor relating to any substance defined herein as a controlled dangerous substance or any felony** under the laws of any state or the United States;
  - ▶ 3. Has had his or her **federal registration retired, suspended, or revoked** by a competent federal authority and is no longer authorized by federal law to manufacture, distribute, dispense, prescribe, administer or use for scientific purposes controlled dangerous substances;
  - ▶ 4. Has failed to maintain **effective controls against the diversion** of controlled dangerous substances to unauthorized persons or entities;
  - ▶ 5. Has prescribed, dispensed or administered a controlled dangerous substance from schedules **other than those specified in his or her state or federal registration**;
  - ▶ 6. Has had a **restriction, suspension, revocation, limitation, condition, or probation** placed on his or her **professional license or certificate or practice** as a result of a proceeding pursuant to the general statutes;
  - ▶ 7. Is abusing or, within the past five (5) years, has **abused or excessively used drugs or controlled dangerous substances**;
  - ▶ 8. Has **prescribed, sold, administered, or ordered any controlled substance for an immediate family member, himself or herself**; provided that this shall not apply to a medical emergency when no other doctor is available to respond to the emergency;
  - ▶ 9. Has possessed, used, prescribed, dispensed or administered drugs or controlled dangerous substances for **other than legitimate medical or scientific purposes** or for purposes outside the normal course of his or her professional practice;
  - ▶ 10. Has been under the **influence of alcohol or another intoxicating substance** which adversely affected the central nervous system, vision, hearing or other sensory or motor functioning to such degree the person was impaired during the performance of his or her job; or
  - ▶ 11. Has **violated any federal law relating to any controlled substances, any provision of the Uniform Controlled Dangerous Substances Act, or any rules** of the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control.

# HB 1948

## Effective November 1, 2015

- Mandatory checks for every new patient and every 180 days (6 months) for three categories of drugs: “opiates, benzodiazepines, and carisoprodol”
- Note in the patient’s file that the PMP has been checked-copy of PMP can be kept in file
- The patient’s history may be disclosed to the patient at the physician’s discretion
- “Any unauthorized disclosure of any information collected at the central repository is a misdemeanor”
- Access to the PMP is for “the purpose of patient treatment and for determination in prescribing or screening new patients”
- “The duty to access and check shall not alter or otherwise amend appropriate medical standards of care”

# New Legislation Effective November 01, 2018

- **SB-1078 Criminal Fentanyl Trafficking - 1 gram or higher**
- **HB 2931 E-Prescribing– All CDS Mandatory by Jan 2020.**
  - **Veterinary Medicine exempt**
  - **Temporary Tech Problems**
  - **Onsite Pharmacy, Hospital, Federal Facilities, LTC, hospices**
  - **Waivers from Licensing Board**
    - Jan 01, 2020 OBN will issue official forms for Waivered prescribers.**
- **HB 2795 Medical Facility owners Register with OBN**
  - **Pain Management clinics ( register the business)**
  - **Majority patients receive on a monthly basis OBC medication**
- **HB 2796 Require out of state CDS Distributors to register and report to OBN**
- **SB 1367 - Good Samaritan Law – Certain immunity for drug related offenses**
- **SB 1446 - 7 Day Limit on Opioid Prescribing**
  - **1<sup>st</sup> time prescribing of Opioid – acute pain, surgery can prescribe 7 days at a time.**
  - **CE Training for Prescribers**
  - **Several restrictions on prescribers ( OBN Emergency Rules 2, 7 day scripts)**
- **HB 2798 Opioid Overdose Death Review Board - Several agencies**

# Title 63 O.S. 309I

(SB 1446)

- ▶ 7 day pill limit applies to acute pain
- ▶ Initial prescription
  - ▶ has never previously been issued a prescription for the drug or its pharmaceutical equivalent in the past year, or
  - ▶ requires a prescription for the drug or its pharmaceutical equivalent due to a surgical procedure or acute pain and has previously had a prescription for the drug or its pharmaceutical equivalent in the past year
  - ▶ not to exceed 7 day supply
  - ▶ requires documenting medical history, physical exam, treatment plan, PMP check, patient-provider agreement (is applicable)
- ▶ Subsequent prescription
  - ▶ no less than 7 days after issuing initial prescription
  - ▶ requires consultation before issuing
  - ▶ not to exceed 7 day supply
  - ▶ document rationale and no undue risk of abuse, addiction, or diversion exists

# 475:30-1-4

- ▶ After issuing an initial prescription pursuant to Section 2-309I of Title 63, an individual practitioner may issue one (1) subsequent prescription for an immediate-release opioid drug in Schedule II in a quantity not to exceed seven (7) days if:
  - ▶ (A) The subsequent prescription is due to a major surgical procedure and/or "confined to home" status as defined in 42 U.S.C. 1395n(a);
  - ▶ (B) The practitioner provides the subsequent prescription on the same day as the initial prescription;
  - ▶ (C) The practitioner provides written instruction on the subsequent prescription indicating the earliest date on which the prescription may be filled (i.e. "do not fill until" date); and
  - ▶ (D) The subsequent prescription is dispensed no more than five (5) days after the "do not fill until" date indicated on the prescription.

# Title 63 O.S. 309I

(SB 1446)

## ▶ Third prescription

### ▶ Discuss risks associated with drugs being prescribed

- ▶ risk of addiction and overdose associated with opioid drugs and taking them with alcohol, benzos, and other central nervous system depressants
- ▶ why the prescription is necessary
- ▶ alternative treatments

### ▶ Enter into pain-management agreement with patient

### ▶ After 3 months of continuous use

- ▶ review course of treatment (at a minimum every 3 months)
- ▶ assess patient prior to renewal
- ▶ make reasonable effort to stop, decrease dosage, or try other treatment
- ▶ check PMP
- ▶ monitor compliance with pain-management agreement

# Title 63 O.S. 309I

(SB 1446)

- ▶ **Providers must have written policies and execute informed consent agreements if they have a**
  - ▶ **Patient requiring 3 or more months opioid treatment**
  - ▶ **Patient with opioid/benzo combo**
  - ▶ **Patient with MME over 100**

# Title 63 O.S. 309

(HB 2931)

▶ **January 1, 2020**

▶ **Electronic Prescribing Controlled Substances**

- ▶ no controlled dangerous substance included in Schedule II, which is a prescription drug as determined under regulation promulgated by the Board of Pharmacy, shall be dispensed without an electronic prescription of a practitioner
- ▶ Electronic prescribing shall be utilized for Schedules II, III, IV, and V, subject to the requirements set forth in 21 CFR, Section 1311 et seq.
- ▶ The electronic prescription requirement provided for in this section shall not apply to prescriptions for controlled dangerous substances issued by any of the following:
  - ▶ a practitioner that has received a waiver or extension from his or her licensing board.
- ▶ All prescriptions issued pursuant to paragraphs 5 and 6 (exemptions from e-prescribing) of this subsection shall be issued on an official prescription form provided by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control.

# Mandatory Checks

- ▶ **Mandatory Checks for Opioids, Benzodiazepines, and Carisoprodol**
- ▶ **Opioids**
  - ▶ Before issuing an initial prescription
  - ▶ Before issuing a third prescription
  - ▶ Every 3 months after third prescription (every 3 months chronic pain patients)
- ▶ **Benzodiazepines and Carisoprodol**
  - ▶ Before issuing an initial prescription
  - ▶ Every 180 days

# Proper Use of PMP

- ▶ **Prescriber has to have his/her own unique account**
- ▶ **No shared office accounts**
- ▶ **Prescriber can have delegates check the PMP**
  - ▶ Delegate must have the supervisor listed on account
  - ▶ Delegate must choose appropriate supervisor for patient search
- ▶ **Must not share username and password with anyone**
- ▶ **Unauthorized disclosure is a misdemeanor**
- ▶ **Prescribers need to check “My Rx” regularly to ensure there are no prescriptions on their DEA that should not be there**

# PMP Clinical Alerts implemented Feb 2018

- **Combination Alert -Benzo and Opioid Combination**
- **Dr. Shopper Alert -5 Pharmacies, 5 Prescribers w/in 90 days**
- **High MME Alert - > 100 Morphine Milligram equivalencies**

**Alerts will show up on the dash board and on the patient profile**

▲ Patient exceeds MME/D threshold 02/28/2018

Please note that this person has received controlled substances prescriptions equal to or greater than 480.0 MME/D. This equals or exceeds the threshold of 100 MME/D.

PATIENT MME/D	ALERT THRESHOLD
480.0	100

This alert was NOT sent as any indication of the practitioner or patient doing anything wrong. Having received this alert does NOT mean that the practitioner, pharmacist, pharmacy or patient is being investigated. This alert is being provided only as a tool to assist you in identifying a potential at risk patient. This alert is NOT intended to suggest a course of medical treatment or to replace the judgment of qualified Medical and Pharmacy Professionals. In response to our users' requests, the Oklahoma PMP provides this Clinical Alert to you in an easily visible manner. The information displayed by this alert is contained within the patient's PMP Report, and is extracted and placed into this format to save you time. This Clinical Alert is based on a nationally recognized standard and is presented for informational purposes only.

Total Prescribers:	5	Current mg/day: 45.0
Total Pharmacies:	6	30 Day Avg mg/day: 45.0
	Current MME/day:	Current mg/day: 0.0
	30 Day Avg MME/day:	30 Day Avg mg/day: 0.0

#### Morphine MgEq/day

## Morphine Milligram Equivalent >100

### Morphine MgEq/day

For CDC guidance, the MME conversion factors prescribed or provided as part of medication-assisted treatment for opioid use disorder should not be used to benchmark against thresholds meant for opioids prescribed for pain. Buprenorphine products have no agreed upon morphine equivalency, and as partial opioid agonists, are not expected to be associated with overdose risk in the same dose-dependent manner as doses for full agonist opioids. MME = morphine milligram equivalents. mg = dose in milligrams.

# REPORT OPTIONS

## Patient Request:

By entering the patient first name, last name and date of birth, you will see their controlled drug prescription history. Information is entered by pharmacy or other dispensing physician offices. If you do not get a return on just the name and date of birth, try adding the zip code to the search.

## Requests History:

Allows you to view all the patient reports you and your delegates have requested

## My RX:

This is your prescribing history. Your delegates do not have authorization to run this report

This report allows you to see all the patients that have been prescribed controlled drugs under your DEA #

# I HAVE PULLED THE PATIENT REPORT, NOW WHAT?

- First, document that you have checked the PMP in the patient file
- If you see something in the report that looks suspicious, for example,
  - multiple opioids,
  - benzodiazepine or
  - even carisoprodol prescriptions,
    - which may overlap in fill dates,
  - maybe have multiple prescribers and or pharmacies,
    - this could be interpreted as a someone who is doctor shopping, diverting or trying to obtain medication through deceptive measures.
    - Make a report to the Oklahoma Bureau of Narcotics and ask to speak to a Diversion Agent at 405-521-2885.

# THE MOST IMPORTANT THING TO REMEMBER.....

# DISPENSING PHYSICIANS- MANUAL ENTRY

- As a dispensing physicians office, you will be able to enter your controlled drugs through the PMP AWARxE site.
- This will be done through the “Menu” button found on your dashboard. Click on “RX Management” then “New RX”

The screenshot illustrates the navigation path for manual entry of controlled drugs. On the left, a dark blue sidebar menu is visible with a 'Menu' button at the top, indicated by a red arrow pointing left. Below it, the 'Data' section contains 'Rx Management', which is highlighted with a red arrow pointing up. The main content area shows a breadcrumb trail: 'Data > Rx Management > New Rx'. A red arrow points down to the 'New Rx' button, which is highlighted in a darker shade than the other buttons in the row. Other buttons in the row include 'Error Correction', 'Rx Maintenance', 'PharmacyRx', and 'PharmacyRx History'. Below this row, the text 'Manual Submission Form' is visible.

## Manual Submission Form

▶ Drug Required fields

▶ Pharmacist Optional

▶ Other (Dispensation Surrogates) Complete if someone other than the patient is picking up medication

Submit

Cancel

Since this form is used in Veterinary medicine, they have an option to mark if it is an animal script and add the animals name.

# MANUAL ENTRY DATA

- Upon submittal of the manual entry form, data should appear within 5 minutes of reporting on the patient PMP report.
- The system will not allow you to upload the data if there are any errors (incorrect NDC codes or missing required fields)
- Typographical errors (misspelling of a name or address) will not stop the submittal. However, these errors can be corrected through the error correction button.

# PMP Upgrades Coming Soon

- ▶ **Prescriber Report**

- ▶ Report will provide a view of the total prescribing activity for the prescriber

- ▶ **Delegate Review**

- ▶ Every 6 months
    - ▶ Supervisor must accept or reject delegates
    - ▶ Supervisor will be able to add delegates
  - ▶ This will ensure only authorized personnel have access to the PMP
  - ▶ This will protect the prescribers information
  - ▶ This will protect the prescriber from unauthorized disclosures occurring

7 Drs 2 Pharmacist in 2018 Arrested and Charged Criminally

# TRENDS Obtaining by Fraud

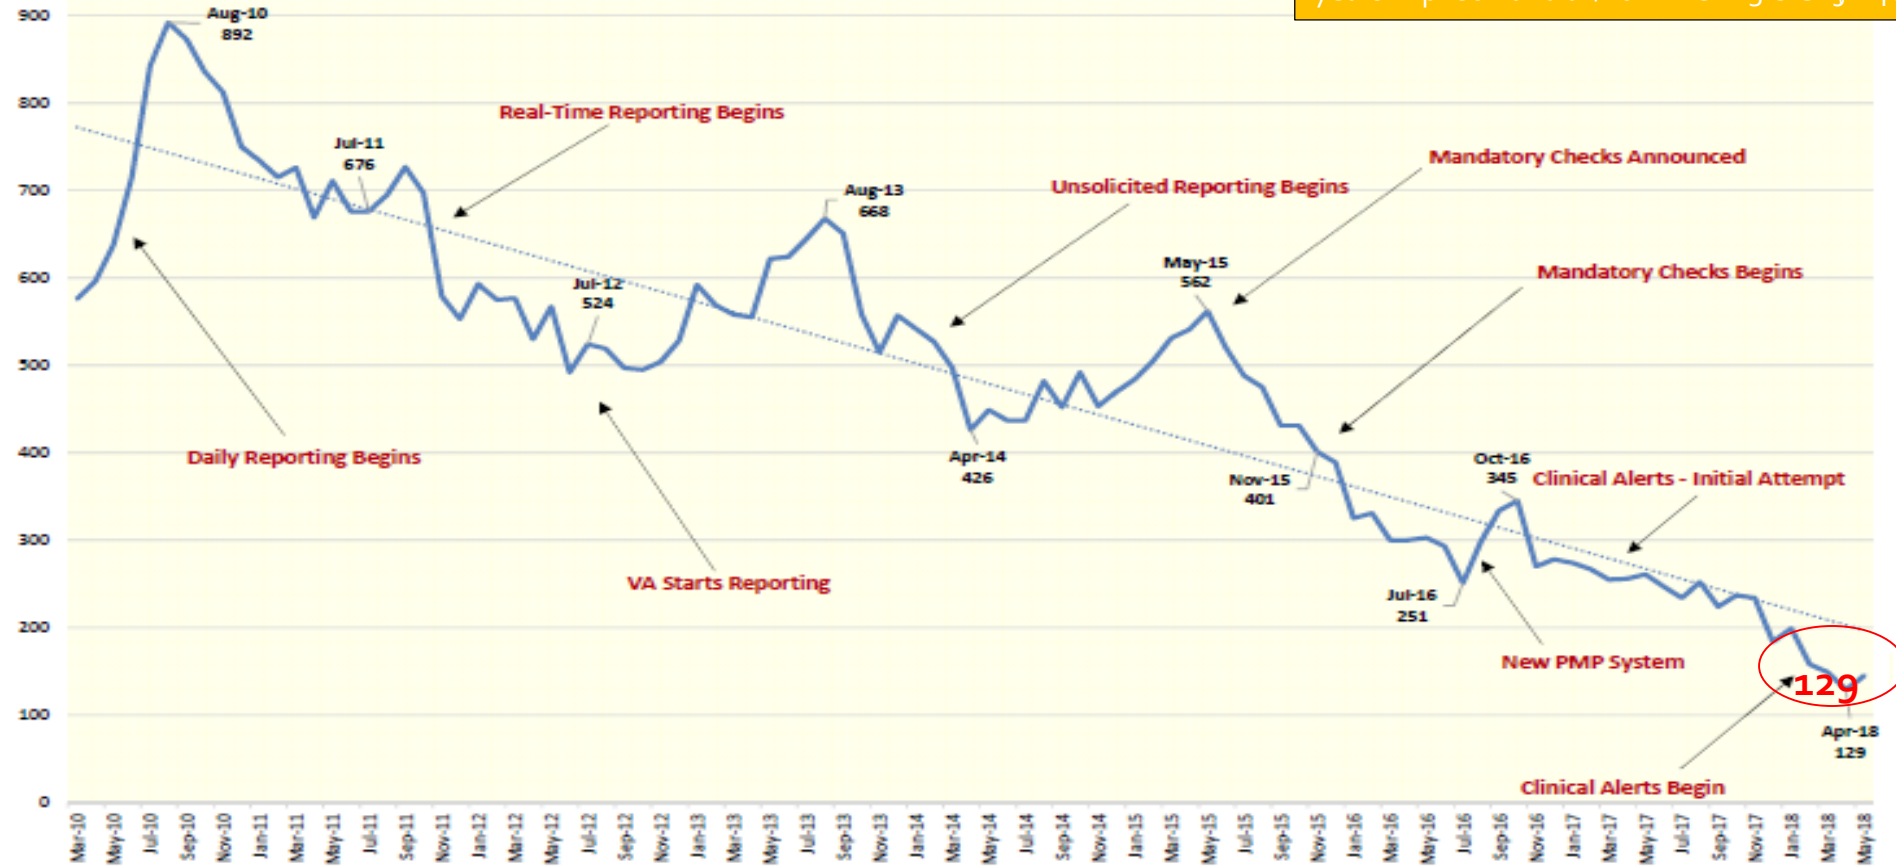

## Correlation B/W PMP Queries and "Doctor Shoppers"

Almost 900

Doctor Shopping in Oklahoma  
2010-2018

It is unlawful to obtain or attempt to obtain any CDS by fraud, deceit, or misrepresentation or concealment of a material fact. Felony up to ten years in prison and a \$10K fine. 63 O.S. §2-407

Based on nationally recognized standards doctor shopping trend is declining.

# Gathering information – Doctor Shopper Case (FRAUD)

- Use the **PMP** as a guide – obtain hard copy scripts from Pharmacy - Pointer where to p/u scripts
  - Date prescription written
  - Date prescription filled
  - The prescribing registrant
  - The controlled substance in question
  - The amount of CDS *dispensed*
  - Refill or new prescription
  - Method of payment - Cash ?

# Long Term Care Diversion

There is a wide-spread and growing problem of **nursing home** employees stealing pain medications from the patients they are being paid to care for. The industry likes to call this practice of pain medication theft, “**drug diversion.**” To be clear, theft of pain medication is a form of **nursing home** neglect and abuse.

**6 Sulphur nursing home employees face charges in prescription drug scheme**
