PRESCRIBING
CONTROLLED
MEDICATIONS
IN OKLAHOMA

OBND DD PRESCRIBING RULES

OAC TITLE 475

- Only a **registered practitioner** may issue a **prescription for a Schedule II, III, IV and V** Controlled Dangerous Substance (CDS)
- It is the **responsibility of the registered practitioner** to guard against diversion of CDS by authorized employees
- A prescription for a CDS must be issued for a **legitimate medical purpose** by a registered practitioner
- A **prescription may not** be issued for a CDS to a drug dependent person for **the purpose of continuing his/her dependence** on such drugs

DEA TITLE 21
CODE OF FEDERAL REGULATIONS (CFR)

1301.71 Security
Requirements Generally

- **All applicants and registrants shall provide effective controls and procedures to guard against ... diversion of controlled substances**

1301.76 Other Security
Controls for Practitioners

- **The registrant shall not employ, as an agent or employee who has access to controlled substances, any person who has been convicted of a felony offense relating to controlled substances**

SENATE BILLS 1446 & 848

- ▶ **Excluded:** SB 1446 & 848 do not apply to patients receiving active treatment for cancer, hospital, palliative care, residents of long-term care facility, or medication for treatment of substance abuse or opioid dependence.
- ▶ **CMEs:** All Oklahoma physicians (DOs/MDs) who hold an OBN and DEA registration must take one (1) hour of Proper Prescribing every single year. The one (1) course must be approved by the DO Board or it will not count—see the Agency’s website for all approved courses.
- ▶ **PMP:** All Oklahoma physicians (DOs/MDs) are required to check the PMP at the time of the initial prescription for opioids, synthetic opioids, semi-synthetic opioids, benzos, and carisoprodol and then at least every 180 days. You must document that your checked PMP—you may include a copy of the PMP in the record (but this is not required).
 - ▶ It is recommended, but not required, that you check PMP every time you order a CDS.
- ▶ **MME:** If you choose to prescribe greater than 100 MME, it is very important that the patient’s records clearly show documentation for your rationale.

SENATE BILLS 1446 & 848 PATIENT-PROVIDER AGREEMENT & WRITTEN POLICIES

- ▶ **Pain Management Agreement:** Practitioner shall enter into an Agreement with a patient: (1) at the time of the third prescription for opioid drug; (2) if the patient requires more than three months of pain management; (3) if the patient is receiving benzos and opioids together (even if it is only a one-time script); (4) if the patient requires more than 100 MMEs; (5) the patient is pregnant; or (6) with the parent or legal guardian if patient is a minor.
- ▶ **Written Policies:** Any provider authorize to prescribe opioids shall adopt and maintain a written policy including execution of written contract between practitioner and a “qualifying opioid therapy patient.”
 - ▶ “Qualifying Opioid Therapy Patient”: (1) a patient requiring opioid therapy for more than three (3) months; (2) a patient who is prescribed benzos and opioids together (even it if is only one time); or (3) a patient who is prescribed a dose that exceeds 100 MMEs.

SENATE BILLS 1446 & 848 INITIAL SCRIPT & INFORMED CONSENT

- ▶ **Prior to Initial Script:** Practitioner shall: (1) take and document a thorough medical history; (2) conduct and document a physical exam; (3) develop a treatment plan; (4) access the PMP; (5) limit supply to no more than seven (7) days for acute pain; and (6) if patient is under the age of eighteen (18), enter into a Patient-Provider Agreement with the parent or legal guardian.
- ▶ **Informed Consent:** Prior to initial prescription and again prior to third prescription, practitioner must discuss risk including: (1) risk of addiction and overdose, dangerous of taking opioids with alcohol, benzos, and other CNS depressants; (2) reason the prescription is necessary; (3) alternative treatment available; and that (4) risks can include fatal respiratory depression. Practitioner shall document in the patient's record each time that the informed consent discussion occurs.

New Rules From OBNDD That Apply to Schedule II Prescriptions

December 11, 2020

Part 1 - Issuance of Multiple Prescriptions

A single prescription for a Schedule II drug does not have a limit on quantity or day's supply.

Doctors can now issue multiple prescriptions on the same day to a patient provided that the prescriptions do not exceed a total of up to a 90-day supply for a Schedule II CDS.

A prescription for a Schedule II CDS becomes invalid 30 days after the earliest date on which a pharmacy may fill the prescription, with day 1 being the first day after the earliest date on which a pharmacy may fill the prescription.

“New Rules From OBNDD That Apply to Schedule II Prescriptions,” December 11, 2020. Oklahoma State Board of Pharmacy. <https://www.ok.gov/pharmacy/>.

Part 2 – Partial Filling of Schedule II Prescriptions

A pharmacy can now partial fill a Schedule II CDS prescription for a patient for up to 30 days after the earliest date on which a pharmacy may fill the prescription. This would not include emergency oral prescriptions which would have to be filled not later than 72 hours after the earliest date on which a pharmacy may fill the prescription.

This does not affect partial filling of Schedule II CDS prescriptions for Long Term Care Facility patients or patients with a medical diagnosis documenting a terminal illness which can be partial filled for up to 60 days from the issue date unless sooner terminated by discontinuance of the prescription.

Please keep in mind that if you partial fill a Schedule II prescription due to the fact that the pharmacy does not have enough medication in stock, then you must fill the remainder within 72 hours of the first partial filling.

“New Rules From OBNDD That Apply to Schedule II Prescriptions,” December 11, 2020. Oklahoma State Board of Pharmacy. <https://www.ok.gov/pharmacy/>.

This is due to the fact that the DEA rule 21 CFR 1306.13(a) requires this situation to be handled this way currently, The OSBP anticipates that this will be changed in the future to 30 days to fill the remainder.

DEA 21 USC §829(f)(1)(C) allows a pharmacy to partial fill a Schedule II prescription for up to 30 days if the initial partial fill is requested by the patient or the practitioner that issued the prescription.

SENATE BILLS 1446 & 848

ACUTE vs. CHRONIC

Acute

- **Shall not** issue an initial prescription for an opioid drug in a quantity that exceeds seven (7) day supply.
- **Shall** be for the lowest effective dose of immediate-release opioid drug
- **Must** state “acute pain” on face of Rx.
- Following initial seven (7) day script, and after an in-person or by telemedicine, a second seven (7) days script may be ordered by the provider if: (1) it is determined the script is necessary/appropriate, rationale is documented, and a determination (with documentation) is made that additional script does not present undue risk of abuse, addiction or diversion.

Chronic

- **If continuing opioid treatment for three (3) months or longer**, provider **shall**: (1) review every three (3) months course of treatment, any new information regarding etiology of pain, and the progress toward treatment objectives; (2) assess patient prior to every renewal to determine if patient is experiencing dependency and document assessment; (3) periodically make reasonable efforts, unless clinically contraindicated to stop, decrease dosage or try other treatment modalities; (4) review PMP; (5) monitor compliance with patient provider agreement; and (6) state “chronic pain” on the face of the script.
- After one (1) year of compliance with provider agreement, the physician may review treatment plan and assess patient at six (6) month intervals.
- Assessment may be performed by a mid-level providers (PA/APRN).
- Face-to-face assessment is recommended by not required; however, an in-person visit is required to start a CDS.

ANTI-DRUG DIVERSION ACT

K. Nothing in the Anti-Drug Diversion Act shall be construed to require a practitioner to limit or forcibly taper a patient on opioid therapy. The standard of care requires effective and individualized treatment for each patient as deemed appropriate by the prescribing practitioner without an administrative or codified limit on dose or quantity that is more restrictive than approved by the Food and Drug Administration (FDA).

STATE STATUTES, RULES, AND REGULATIONS

THE STATUTE (LAW) – TITLE 59 WHAT DOES IT SAY?

- ... Investigators may investigate and inspect the records
- ... To ensure compliance with any State or Federal law or rule affecting the practice of osteopathic medicine
- ... Licensee shall be deemed to have given consent

Refusal to allow such access may constitute grounds for non-renewal, suspension or revocation of license. Refusal will guarantee a visit before the Board for non-compliance.

THE PROCESS

Report comes into Office where it is reviewed by Executive Director & Investigators for Emergency Action

Medical Review Committee: Executive Director, Investigators (2x), Investigative Assistant, Medical Advisors (2x), and Prosecutor

Case opened or closed with letter to complainant

If opened, assigned to an investigator as Preliminary or Full

Based upon the results of the investigation, the physician is cleared, or the prosecution process begins

If prosecution occurs, case is heard by the Board

An Order from the Board is issued

WHAT INITIATES AN INVESTIGATION BY THE BOARD?

- Complaints from the public
- Other physicians
- Family members of patients
- Pharmacists
- Citizens of a community
- Oklahoma Attorney General
- Oklahoma Bureau of Narcotics
- Drug Enforcement Administration

MEDICAL REVIEW COMMITTEE

Executive Director
Prosecuting Attorney
Investigators (x2)
Investigation Assistant
Medical Advisors (x2)

Review Complaints for:

or DEA Statutes/Rules

Possible Outcomes:

No Jurisdiction, No Clear and Convincing Evidence, No Violation,
Preliminary Investigation, Full Investigation

PREMLINARY CONSIDERATIONS

During the investigation

- Volume > CDS dosage units per month, year
- Number CDS scripts per day
- Class of CDS / combination of CDS “cocktails”
- Ignoring or failing to check PMP
- Patient Deaths
- MME – Morphine Milligram Equivalents

RED FLAGS FOR INVESTIGATORS

- Patients come from everywhere
- Individual patients use multiple drug stores to fill prescriptions
- Multiple prescriptions to single patient
- Poor medical chart/records
- Excessive patient volume
- Early Refills

RED FLAGS FOR INVESTIGATORS, CONT'D

- High number of Rx for specialty
- High number of dosage units per month
- Multiple prescribers for same patient
- Friends and Family receiving same CDS Rx
- Multiple Overdose deaths
- Cash payments
- Excessive number of patients receiving high dose opioid therapy. (>100 MME)

CATASTROPHIC FINANCIAL LOSSES!

HOW DO I STAY OUT OF TROUBLE WITH THE LICENSING BOARD, OBN AND DEA ?

DOCUMENTATION!

“While the prescribing healthcare professional is obligated to treat pain, he or she must appreciate the importance of complete documentation . . .”

(Pain Medicine News, Special Report, December 2004)

“Curtailling drug abuse and drug diversion can be accomplished without unduly impeding the compassionate use of narcotic analgesics . . .”

(Journal of Medical Licensure and Discipline, Vol 91, No. 2, 2005, David G. Greenberg, MD, MPH)

SCREENING, MONITORING, AND DOCUMENTATION

RESPONSIBLE PRESCRIBING AND DOCUMENTATION

Documentation

- Complete H & P
- Pain Assessment
- Physical and psychological function
- History of substance abuse
- Co-existing conditions
- Treatment of Objectives
- Risk/Benefit Discussion
- Other modalities
- PMP Search

HOW – AND WHY – DO PROVIDERS GET INTO TROUBLE PRESCRIBING FOR CHRONIC PAIN?

Scammed by ‘professional’ patients

- Failure to implement adequate screening procedures and office policies

Failure to engage patient monitoring techniques

- Guarding against drug diversion and abuse
- Ignoring aberrant behavior and clinical impairment

Failure to properly document patient charts

- No Pain Management Agreement (MAJOR VIOLATION)
- Inadequate H&P, lab, imaging, other diagnostic indicators
- Treatment plans, assessments, records, referrals, consults

Sometimes considered ‘passive mistakes’ resulting in non-punitive remedial action as opposed to punitive action (Board Order)
