## 5 INAUGURAL ADDRESS OF OOA PRESIDENT RICHARD W. SCHAFFER, DO, FACOFP

"Now, we have an even more important hurdle to get over: Coronavirus or COVID-19. How are we going to practice medicine in the future? When are we going to be able to get closer to the patient?"

## 18 2020 LEGISLATIVE UPDATE

Due to the COVID-19 pandemic, the 57th Legislature, 2nd Regular Session was anything but usual. The Legislature adjourned on March 18 with Governor Stitt calling a special session on April 6 so the legislature could act upon emergency legislation which would allow the Governor to enact a state of emergency.

## 21 2020 VIRTUAL SUMMER CME

Join us for an online CME worth 17 AOA Category 1-A credits on August 21-23, 2020. This CME is chaired by Jonathan B. Stone, DO and will have an emphasis on practicing medicine during a pandemic.

# INAUGURAL ADDRESS

*“And I’d like to give my love to everybody and let them know that the grass may look greener on the other side, but believe me, it’s just as hard to cut.”*

– Little Richard

First, I would like to thank my wife, Beverly, for putting up with me over the years. We met at OSU on a blind date, and I have been blinded ever since. She was in the School of Education and became a school teacher while I was in Veterinary Medical School at OSU. I graduated in 1968 and after getting married, we went to the US Army Veterinary Corp for four years. In 1972, my father asked me to return to Tulsa to help him in his business, and thus, my veterinary medical practice was relegated to our cattle ranch.

In 1989, I had the opportunity to get back into medicine full time. As my classmates know, I started school that year at Oral Roberts University School of Medicine in Tulsa. When that medical school closed, I was able to transfer to the OSU School of Medicine early that school year. What an opportunity it was for a non-traditional student.

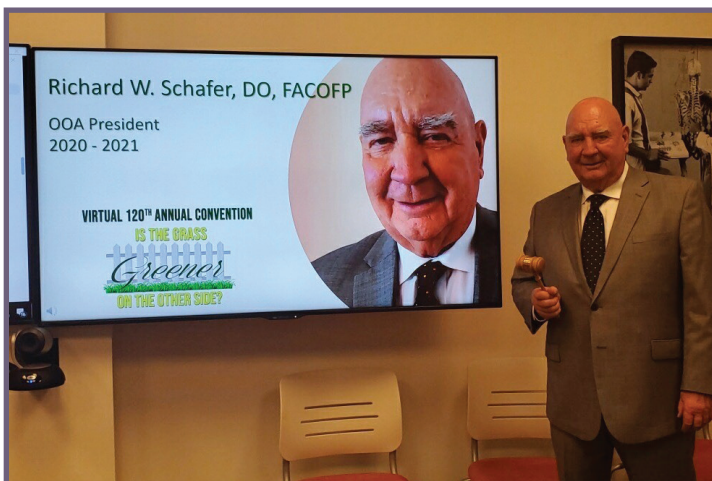

Our boys were in school and our oldest, Ryan, graduated from high school the same year that I graduated OSU-COM in 1993. He has since graduated from OSU-COM

and is in private practice in Ardmore with his wife, Holly, and son, Royce. Our younger son, Russ, also went to OSU and then entered the US Marine Corp. He served in both the Middle East and the Far East. He is married to Christy, a PA practicing in the Tulsa area, and has two sons, Reid and Ross.

I would like to thank all of my family for their support as I begin this year. Also, I would like to thank the staff of the OOA for their support. It will take all of us working together to accomplish our goals next year.

As I was coming up with a theme for this convention, I thought about our life on the farm and how my cattle always looked through the fence to graze from the other side. Are we as an association looking to the other side of the fence, wanting to be MD’s? We all know that the MD Medical Association is asking our members to join their association. Or, is the big story over the last year, marijuana, the new medicine? It offers hope in many areas of medicine including pain, anxiety, and sleep. Treating all these things are important to us as physicians and our patients.

Now, we have an even more important hurdle to get over: Coronavirus or COVID-19. How are we going to practice medicine in the future? When are we going to

be able to get closer to the patient? When are we going to treat with OMT as we have been trained? We have been trained to touch and move the body to get it into a better, more positive place.

Now we have a new and damaging crisis. A crisis of two parts. The first, danger and fear. The second, opportunity.

There are many dangers: Does my job continue? Will my employer have enough income? Am I depressed? My patients sure are depressed and feel isolated. Will I be able to get meds for my patients to treat them properly?

I have many patients that only have a home phone with no smart phone available. These patients need to continue to be treated safely. Many have a smart phone but can't make it work with available programs. These are true technological challenges that cause fear! The last few weeks have been difficult for the clinic as we have learned to work with patients and their mobile phones. It may take 10 to 20 minutes to get them online, and it's changed our procedure in how we connect with our patients.

However, there are also so many new opportunities: Virtual CME, telemedicine, telephone billing, and telemonitoring. This virtual meeting has shown that we can do things differently. We can learn virtually, and we can talk and diagnose virtually.

Is this our new norm? I believe it both is and is not. We will continue to have telemedicine, telemonitoring and yes, telephone contact only. Telemonitoring will allow us to better follow our patients at home after hospitalization. We now are able to monitor blood pressure, heart rate, oxygen saturation, and blood sugars. This will allow us to follow the health of our patients and quickly make meaningful changes in their medications and treatments.

Telemedicine has been a big part of my practice over the last six weeks. I have my nurse get the patient set up on the phone or their computer and then I will enter my office to talk with the patient on my computer. Now, on off days when I am on call, I will try to set up a telemedicine call rather than just call in some medicine for a UTI for the patient. At this time, telemedicine is between 30 and 40 percent of my day. I believe this will continue for as long as we can see.

So yes, we are in a crisis. We do not know how long this COVID-19 will last but, as physicians, we know that we will come out of this tunnel and see the light. We will learn how to treat the virus, and we will have a vaccine. No doubt, there will be future crisis, and we will face more challenges in medicine. We will have to work politically to protect our future in medicine. As a physician, we must work on practice rights. But, most of all, we must protect the public and our patients. Please help me and your representatives on the Oklahoma Osteopathic Association Board by being politically active. Join us. The grass may look greener on the other side, but we are Osteopathic Physicians. Let us remain Osteopathic Physicians.

We need you as an active member of the OOA.

# FEDERAL BUDGET PROPOSAL INCLUDES \$120 MILLION TO FUND VETERAN'S HOSPITAL IN TULSA

- OSU Insider

Included in the FY 2021 budget submitted to Congress in February 2020 is a \$120 million federal appropriation for a Veterans Hospital in Tulsa (VHiT). The inclusion of the funds is the result of an unprecedented collaboration among the Federal Government, State of Oklahoma, City of Tulsa, private philanthropy, and Oklahoma State University.

The VHiT project will convert the Kerr Edmondson Building into a modern 275,000 square-foot, 58-bed medical-surgical hospital. The Kerr Edmondson Building is owned by the state of Oklahoma and located next to the Oklahoma State University Medical Center, one of the largest osteopathic teaching hospitals in the nation. This is a unique opportunity to secure a large and important veteran resource, operated by the VA, but developed by and for the local community.

Oklahoma's U.S. Senators James Inhofe and James Lankford along with Oklahoma U.S. House of Representative members, Markwayne Mullin and Kevin Hern, each signed the original application for the Veterans Hospital in Tulsa (VHiT) project and led the effort to prioritize this project for Oklahoma's veterans.

"I am proud of Oklahomans uniting together to serve our veterans more effectively and efficiently. This hospital will be a perfect use of the Kerr Edmondson buildings, and the partnership with OSU Medicine will ensure greater access to specialty physicians. This is a true example of how we can leverage public-private partnerships in order to ensure we are providing our veterans with the quality care and support they deserve," said Gov. Kevin Stitt.

The total cost of the project is estimated at \$173 million with the federal government investing approximately \$120 million. The state of Oklahoma will finalize transfer of the Kerr Edmondson facility and site, the City of Tulsa will commit \$8 million toward site and parking improvements, and private donors will cover the balance of funds for the project.

"This is about building a health care system that will meet the needs of veterans in Eastern Oklahoma now and for decades to come," said Mark E. Morgan, Director, Eastern Oklahoma VA Health Care System. "We are truly thankful for the support and collaborative effort from our congressional and community stakeholders."

OSU Center for Health Sciences, the OSU A&M Regents, and OSU Medical Authority played a significant role aiding the all-important collaboration between the OSU Medical Center and the Eastern Oklahoma VA Healthcare System.

"Thanks to the efforts of our Oklahoma delegation we'll be able to serve our veterans and our medical students in an unprecedented way. Senators Inhofe and Lankford have paved the way to improve health care access and outcomes in Oklahoma and I am incredibly thankful for their leadership," said Dr. Kayse Shrum, OSU Health Sciences President.

OSU's strong relationship with the military makes the institution's involvement in the VHiT more special and meaningful.

"Through our medical school in Tulsa, OSU is pleased to be part of this community-led partnership to create a modern, dedicated hospital to care for our wonderful Veterans. This unprecedented project is the result of visionary community, state, and federal leadership. We are fortunate to have exceptional leadership at our medical school in Dr. Kayse Shrum, who supports the efforts of the VA to find ways in which to address the unique medical needs of Oklahoma veterans," said Burns Hargis, President of OSU.

# Let UPAL handle the heavy lifting of your 401(k) setup and administration.

## Looking For A Rock-Solid Retirement Planning Partner?

For more than 30 years, UPAL has been helping physicians take a load off of their retirement and financial planning demands. Specializing in 401(k) administration and planning for the healthcare industry, UPAL offers several flexible management choices for our private practice clients. From a custom 401(k) plan design, easy set-up, and administration, to a self-directed option — leveraging the stocks, bonds, and mutual funds of your choice — UPAL offers our medical practice clients a pain-free solution to retirement planning.

# 2020 Legislative Update

by Lana G. Ivy, MBA, CFRE CEO/Executive Director

## THE SECOND SESSION OF THE 57TH LEGISLATURE HAS BEEN ANYTHING BUT USUAL.

This year, the Oklahoma State Legislature was scheduled to convene on February 3 and adjourn on May 29. Oklahoma legislators filed 2,243 bills and resolutions for the 2020 session. The total included 1,361 House bills, 1,040 Senate bills, 16 House joint resolutions, four House concurrent resolutions and 22 Senate joint resolutions. Joint resolutions are the measures being referred to a vote of the people.

Due to the COVID-19 pandemic, the 57th Legislature, 2nd Regular Session was anything but usual. The legislature adjourned on March 18 with Governor Stitt calling a special session on April 6 so the legislators could act upon emergency legislation which would allow the Governor to enact a state of emergency. Several Executive Orders and Amended Executive Orders related to COVID-19 were issued during April and May.

The 2nd Regular Session reconvened on May 4, 2020 and the number of bills to be heard were reduced to a list of “must-pass” legislation. In the end, 201 bills were sent to the Governor who signed 183 bills into law and vetoed 18 bills. Ten of the 18 bills Governor Stitt vetoed were overridden by the legislature.

It was quite a historic year of vetoes and veto overrides. The Governor vetoed the \$7.7 billion budget for the coming fiscal year on May 13, but within minutes, the Oklahoma Senate voted to override his veto. Several hours later, the Oklahoma House did the same and the budget was enacted.

The legislature adjourned on May 22, meeting for a total of 37 days. A normal session is around 90 days.

This session proved challenging for the OOA and our lobbyists. Between mid-March and the end of May, there were no committee meetings or public hearings on any

piece of legislation and with the State Capitol closed, communication became even more critical.

The bills listed below in bold are those that were passed since May 4 that should be noted.

### **SB 1915**

SB 1915 amends various terms in the Physician Assistant Act. Practice of medicine is amended to provide for physician delegation instead of supervision and authorizes physician assistants to provide health care services, provided a practice agreement with delegating physician or physicians is in place; the measure allows a physician assistant to practice agreements with multiple physicians. The agreement shall involve the joint formulation, discussion and agreement on the methods of supervision and collaboration for diagnosis, consultation and treatment of medical conditions. All practice agreements and any amendments shall be filed with the State Board of Medical Licensure and Supervision within 10 business days of being executed. The measure also requires the State Board of Medical Licensure and Supervision to collect and publish information outlined in the measure. The measure specifies that such a delegation shall include an agreement between a medical doctor or osteopathic physician performing the procedure or directly involved with the treatment of a patient and the physician assistant working jointly toward a common goal of providing services for the same patient. SB 1915 was signed by Governor Stitt on May 21, 2020.

### **HB 3562**

Authorizes optometrists to dispense prescription drugs. HB 3562 was signed by Governor Stitt on May 19, 2020. The OOA signed a coalition letter with other medical organizations asking the Governor to veto this bill on May 15.

### **SB 1525**

Requires applicants for allopathic and osteopathic medicine to undergo national criminal history checks. Information resulting from the criminal background checks may not be distributed outside the state. Further, the measure states that the State Board of Medical Licensure and Supervision and the State Board of Osteopathic Examiners have exclusive authority to determine the qualifications of applicants. SB 1525 was signed by Governor Stitt on May 21, 2020.

### **SB 300**

Creates the COVID-19 Public Health Emergency Limited Liability Act. The measure provides health care providers with immunity from civil liability for any loss or harm to a person with a suspected or confirmed diagnosis of COVID-19 caused by an act or omission by the facility or provider that occurs during the COVID-19 public health emergency, provided the act or omission was not the result of gross negligence or willful or wanton misconduct. The provisions of the measure shall remain in effect until October 31, 2020, or until such time as the Governor affirmatively concludes the emergency declarations. SB 300 was signed by Governor Stitt on May 12, 2020.

### **OSDH Proposed Rule 535**

The proposed change will strengthen the process for obtaining vaccine exemptions for children enrolled in Oklahoma schools or childcare centers. It includes:

- The delivery of educational materials from a local health department prior to the completion of the exemption form.
- Redirect requestors from a school to a local health department to obtain the exemption form; and
- Require an exemption form prior to kindergarten and prior to middle school (7th grade).
- This rule change in no way diminish parental choice and in fact, allow them to make a more informed decision. Governor Stitt approved this rule on June 25, 2020.

### **SQ 802**

On June 30, Oklahomans voted to expand Medicaid in Oklahoma after a decade of debate. SQ 802 narrowly passed the ballot on June 30 by 6,518 votes. A total of 673,110 Oklahomans voted with seven counties voting yes (50.48%) and 70 counties voting no. SQ 802 will ex-

pand Medicaid in Oklahoma covering low-income people (less than 133% of poverty) without imposing new burdens or restrictions on eligibility or enrollment. According to estimates before the coronavirus pandemic, expansion will make 200,000 more people eligible for Medicaid in Oklahoma. The state will pay 10% of the cost of the expansion, and the federal government will pay the other 90%.

Below is an update on bills sent to the Governor we reported on in the last journal.

### **SUPPORTED**

#### **SB 1525**

Osteopathic Licensure Board; Gives the State Board of Osteopathic Examiners the exclusive authority to determine qualifications and fitness of applicants for admission to practice osteopathic medicine. Governor Stitt signed this bill into law on May 21, 2020.

#### **SB 1423**

Tobacco; Increases the legal smoking age to 21. Governor Stitt signed this bill into law on May 19, 2020.

#### **SB 1718**

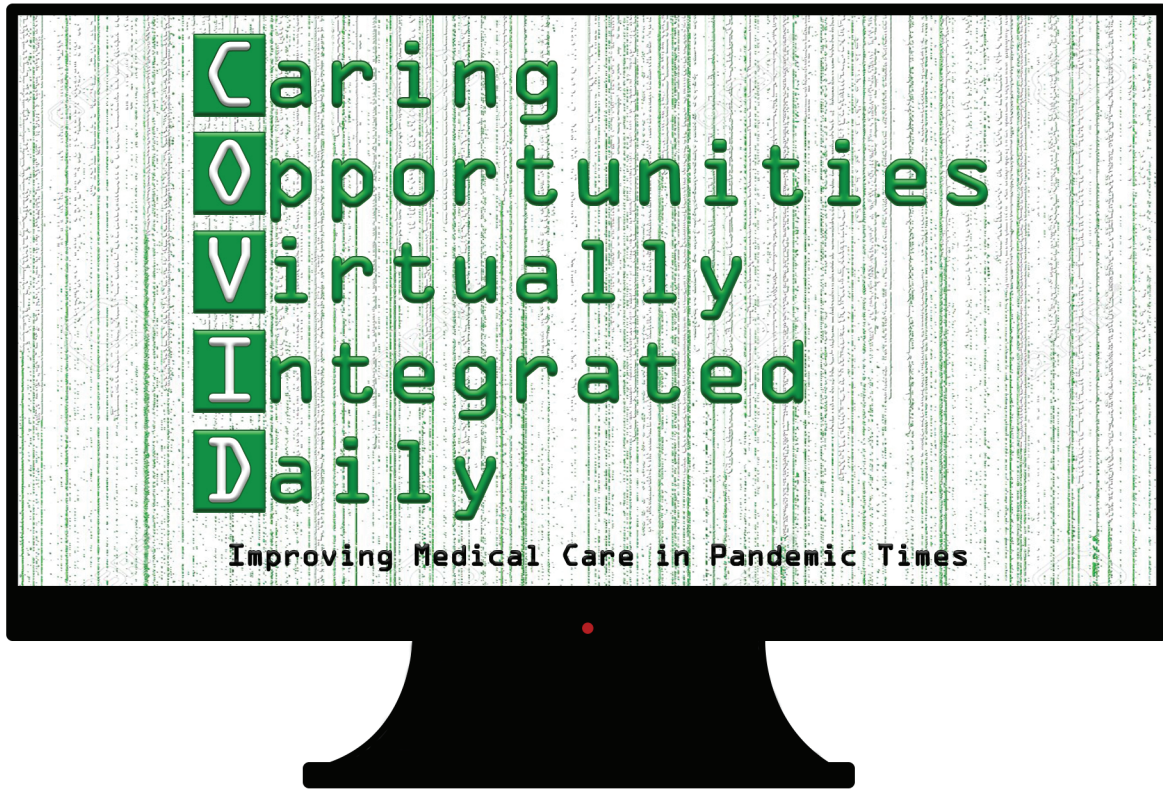

Mental Health; Requires all health benefit plans to provide benefits for treatment of mental health conditions and substance use disorders and provides for additional requirements of health benefit plans, insurers, and the Commissioner. Governor Stitt signed this bill into law on May 19, 2020.

### **OPPOSED**

#### **SB 1046**

SHOPP; Relates to Medicaid and the supplemental hospital offset payment program by defining newly eligible Medicaid populations directing additional funds to the Health Care Authority and authorizing certain related expenditures for FY-21 only. Governor Stitt vetoed this bill on May 21, 2020.

## We Need your Help!

The Oklahoma Educational Foundation for Osteopathic Medicine General Fund provides funding for expenses incurred monthly and is in need of replenishment. Please consider a tax-deductible contribution of \$25, \$50, \$100, \$250, \$500 or a \$1,000 or more to the OEFOM General Fund.

Tax deductible gifts can be easily made to OEFOM in the following ways:

1. Make a secure donation online at [www.okosteo.org](http://www.okosteo.org) » Foundation Tab at top of page » Donate to OEFOM » Give to the OEFOM General Fund.
2. Mail this form with your check or credit card information to 4848 N. Lincoln Blvd., OKC, OK 73105.
3. Fax your form to the OOA's central office at (405) 528-6102.

## Can't Help Right Now?

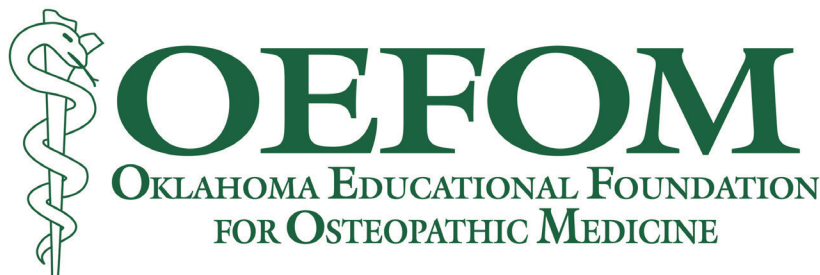

## Consider a Gift in Your Will or Trust

If you believe in the mission of the Oklahoma Educational Foundation for Osteopathic Medicine (OEFOM) but don't want to part with money today, a gift in your will or living trust may be the donation option you've been looking for. It has three benefits:

- **SIMPLICITY.** As little as one sentence in your will or trust is all that is needed. Share the following with your attorney to complete your gift: I give the Oklahoma Educational Foundation for Osteopathic Medicine, Oklahoma City, Oklahoma (the sum of \$\_\_\_\_ or \_\_\_\_ percent of the rest, residue and remainder of my estate) for its general purposes and/or student scholarships.
- **FLEXIBILITY.** Because you are not actually making a gift until after your lifetime, you can change your mind at any time.
- **VERSATILITY.** You can structure the gift to leave a specific item or amount of money, make it contingent on certain events, or leave a percentage of your estate to us.

*A charitable bequest is one of the easiest ways you can leave a lasting impact on the osteopathic profession.*

For additional information about making a gift through your will or trust, please contact Lana G. Ivy, MBA, CFRE, secretary/treasurer for the OEFOM at 405-528-4848 or by email at [lane@okosteo.org](mailto:lane@okosteo.org)

# SEPTEMBER

## Become a member of the Oklahoma Osteopathic Association today!

As health care becomes more complex on the state and national level, it's more important than ever that the Oklahoma Osteopathic Association continues to represent your interest and those of your patients to our state legislators and state leaders. That is, the OOA is the voice for all Oklahoma DOs, no matter what your specialty, no matter where you work or who you work for. We are the only organization in the state that advocates for DO physicians and their patients. As a member physician please know that your opinions, thoughts and concerns are important to the OOA. Your membership is what allows the OOA to continue to serve you and the osteopathic profession.

As a physician member, shaping the future of the osteopathic profession includes the opportunity to mentor incoming first-year medical students at OSU-COM, preparing them to champion their patients and the profession. You also have access to over 60 hours of quality CME opportunities at a discounted rate to stay on the cutting edge of patient care. You will stay up-to-date on all of the latest legislative developments and OOA events with weekly e-newsletters, this quarterly journal, the annual directory and social media.

## Get to know our newest board member & welcome back those re-elected!

### Thomas B. Leahey, DO, trustee

Welcome to our newest board member, Thomas Leahey, DO. Dr. Thomas Leahey is a Rheumatology Specialist in Ardmore, OK and has over 36 years of experience in the medical field. Dr. Leahey has more experience with Arthritis and Arthropathy than other specialists in his area. He graduated from University Of North Texas Health Science Center Texas College Of Osteopathic Medicine, University Of North Texas Health Science Center at Fort Worth Medical School in 1984. He is affiliated with Mercy Hospital Ardmore.

### Re-elected Board Members:

- Richard W. Schafer, DO
- Jason L. Hill, DO
- Timothy J. Moser, DO
- Jonathan K. Bushman, DO
- Rebecca D. Lewis, DO
- Jonathan B. Stone, DO
- Douglas C. Nolan, DO
- Teresa Hardesty, DO
- Christopher C. Thurman, DO
- Amanda G. Foster, DO
- Justin S. Sparkes, DO

### Not a DO? You can still join the OOA as an Associate Member!

Associate membership may be granted to teaching, research, administrative, or executive employees of accredited osteopathic colleges or of osteopathic hospitals approved by the American Osteopathic Association, members' full-time employees, and to administrative employees of this Association or of affiliated organizations or of district societies.

If you are interested in learning more on how you can impact healthcare in Oklahoma, email [tyler@okosteo.org](mailto:tyler@okosteo.org).
