

**Sherisa G. Warren, DO, RPVI**, is originally from Stinking Creek, Kentucky. Dr. Warren earned her doctor of osteopathic medicine degree from the University of Pikeville Kentucky College of Osteopathic Medicine. After graduating, she completed a residency in general surgery at Garden City Hospital in Michigan. Upon finishing her residency, Dr. Warren participated in two fellowships. Her first fellowship was in general vascular surgery at Maclaren Macomb Hospital in Mt. Clemens, Michigan; her second

fellowship was in general and endovascular surgery at Arizona Heart Institute and Hospital in Phoenix. From there, she began practicing at Abrazo Arizona Heart Institute, a world-renowned destination for heart and vascular care.

Dr. Warren treats all aspects of vascular disease, and has particular interest in the minimally invasive endovascular treatment of peripheral arterial disease (PAD).
