

MEDICAL LIBRARY

OSU Center for Health Sciences

NLM Resources:

The [National Institutes of Health \(NIH\)](#) is the nation's premier medical research agency, with 27 different institutes and centers. The [National Library of Medicine \(NLM\)](#) at the NIH is the world's largest medical library. NLM provides free, trusted health information to you through [MedlinePlus](#) and NIH [MedlinePlus magazine](#). [PubMed](#) is comprised of more than 30 million citations for biomedical literature from MEDLINE, life science journals, and online books. Many citations include links to full-text content from PubMed Central and publisher web sites.

Coronavirus.gov

[Coronavirus.gov](#) provides the latest updates on the pandemic response from The White House, CDC, and FEMA.

NLM Digital Collections

[Digital Collections](#) is the National Library of Medicine's free online repository of biomedical resources including books, manuscripts, still images, videos, and maps. The content in Digital Collections is freely available worldwide and, unless otherwise indicated, in the public domain.

Archives & Personal Papers Collections

Digitized personal papers and organizational records documenting predominantly American medical practitioners, biomedical science, public health, and allied sciences from about 1850 to the present.

Images from the History of Medicine (IHM)

Access over 70,000 images in NLM collections from the 15th to 21st century.

National and International Policy Issues

- Quality Health Care
- Financing
- Family Support
- Education

Health Policy and Services Research

Read significant, specially-selected health services research grey literature content.

World War 1, 1914-1918

Explore publications ranging from unit histories to published personal narratives, accounts of relief work, and more.
