

## **Josh Freeman**

I attended the Southern Regional Public Safety Institute in 2016. I am working on seven years of law enforcement experience with two years of Criminal Investigations experience. I have a strong desire to learn new skills, to increase my level of knowledge and competence, and to be an asset to the departments that I serve.

I have a combined 17 years of emergency services experience split amongst fire, medical and police. In my experience, I have worked about every type of violent crime, fires ranging from wildfires, commercial, vehicle and even school fires, and almost every type of immediate medical crisis ranging from heart attacks, sepsis, to gunshot wounds.

Through my career, I have worked with numerous outside agencies ranging from FBI, Secret Service, US Marshals, ATF, MS Highway Patrol, MS ABC, MS State Crime Lab, MS State Auditor's Office and the MS Attorney General's Office.

I have been employed by the Oklahoma State Board of Osteopathic Examiners as a Special Investigator since March 2024.
