

## **Jeanette Kelley, D.O., F.A.C.O.I**

Jeanette Kelley, D.O, F.A.C.O.I is a native Oklahoman. She grew up in Harper County in the town of Laverne. Her career in health care began at the age of 17 when she had the opportunity to work as a Nurses Aid at Newman Memorial Hospital in Shattuck located in Ellis County. Seeing the patient-physician relationship up close by observing the doctors in this community has continued to lead her passion for patient care and the patient-physician relationship. She also has a strong sense of protection for our bedside nurses and support staff thanks to these experiences.

She had the honor of working alongside her mother who is an RN and continues to work even after her retirement from the hospital. Dr. Kelley graduated from Laverne High and was accepted to Southwestern Oklahoma State University, earning a Bachelor's of Science in Biology and a Bachelor's of Art in Chemistry. She then studied at Kirksville College of Osteopathic Medicine in Kirksville, MO (the school which was founded by A. T. Still, MD DO, the first D.O.) After completing medical school, she and her growing family moved to Tulsa to complete her Internal Medicine Residency at Oklahoma State University Medical Center. She has been grateful to be in the role of hospitalist since the completion of residency training and is now the mother of 4 children. She and her husband, Greg, stay plenty busy with their children's activities, Greg's welding shop, gardening, pets, and many other home projects. Dr. Kelley is also on the state OOA Board of Trustees and is Chair of the ACOI Government Affairs Committee. She desires to keep all patients of Oklahoma safe when it comes to their health and the options they have in obtaining this care.
